Aims and objectives

What do you wish to achieve by providing regulated activities?

How will your service help the people who use your services?

Please use the numbered bullet points:

1. Provision of excellent patient care delivered in a clean, suitably equipped and safe environment.

2. Care will be provided by suitably trained members of staff who will have the right skills and training and experience to carry out their duties and will work alongside other non practice primary care staff to ensure the ongoing appropriate care of our patients.

3. Patients will be involved in their own care and be given the appropriate choices in who, where and when their care is provided.

4. The practice will provide suitable clinics and care to manage long term conditions putting the patient as our primary focus not their condition/s.

5. All patients and users of the Practice will be treated with dignity and respect.

6. The Practice will work in collaboration with other NHS Healthcare providers to ensure that appropriate and cost efficient pathways are devised resulting in patients having easier access to services closer to home.
